See This Sewing Machine **Demonstration.**

Mr. Jersey, the Expert from Chicago,

Writes us that he will conduct one of those rousing demonstrations of that popular sewing machine, "THE FREE," on Friday and Saturday, March 8th and 9th.

Mr. Jersey has a thorough knowledge of all sewing machines and in his earnest and convincing way, will tell you why the Free is the master of them all.

He Will Prove to You

So that the least doubt will remain in your mind that the Free actually does run lighter, sews faster, makes a more perfect and beautiful stitch than any other sewing machine. He will prove to you that the Free is easier to operate, will last longer, and will do a greater range of work than any other sewing machine manufactured. He will show you its many new exclusive features, such as the clever automatic drawer locks, the rotary spool pin, the shuttle ejector, the belt, which never comes off, the automatic tension release, and the pedal which refuses to let you

We want you to meet Mr. Jersey so that he can explain the advantage of these many new improvements to you.

He Will Save You Money

By making you a member of our "Free Sewing Machine Club," through which you can have the Free Sewing Machine in your home by making a small payment down, and the balance on terms as low as \$1.00 per week. Remember the date of this demonstration and don't fail to be there.

HANGING VOIDED POLICY.

Bupreme Court Ruled Against Helrs of Man Legally Executed.

Washington.-The Supreme Court in an opinion by Justice McKenna held that the helrs of former ex-Mayor McCue of Charlottesville, Va., cannot recover on a policy held in the Northwestern Life Insurance Co.

McCue was legally hanged for the murder of his wife. The insurance company refused to pay the policy claiming that a legal execution was hot contemplated as a risk.

The Growing South.

The south is forging ahead at a great rate. The fourteen southern states, with Missouri and Oklahoma, have a population of 32,000,000, or only 18,000,000 less than the tetal population of the United States in 1880. Since 1880 the sixteen southern states have increased the annual value of their mineral production from \$20,-000,000 to \$340,000,000, as against \$450,000,000 in the whole country in 1880. Their manufactured products have a value within \$2,000,000,000 of the value of the whole country thirty years ago. In 1880 the railroads of the country had an aggregate length of 93,300 miles. The southern states now have 87,000 miles. From southern ports were exported last year goods to a value only \$100,000,000 less than the value of all exports from the country in 1880.-Chicago American.

Dark Problem.

There are those who are dreadfully intolerant of ignorance about New York. The other day, for instance, a lady, obviously from many hundred miles away, boarded a Broadway car at Times square.

"Does this car go to Third avenue?" she asked. A look composed of equal parts of pity, rage and disgust spread over the conductor's face. "Will you please tell me, lady, how this car could get onto Third ave-

one?" he asked coldly, as soon as he

FORTUNE IN RARE COINS

Fat Picking for Watchful Cashiers in Stores, Bartenders and Street Car Conductors.

ticket agents at theaters and railroad stations, bartenders and conductors on cars are in a fair position to become collectors of rare coins, as they handle every kind of money piece from foreign coins to old-time money of the United States. A saloonkeeper in Harlem declares he has made a small fortune during the last few \$651 02 | Years by saving the rare coins that

are taken over the bar. "I have a tin box filled with rare United States pieces," he related, "and I could have a collection of for eign coins if I so desired. You would be surprised to see how anxious some men are to get a drink at the expense of spending a rare old coin for its face value. Silver and paper currency that pay a good premium are given to my bartenders for face value. I have often noticed a reluctance on the part of the holder before parting with the coin. He will give a last look at the money and then place it on the bar for the refreshing beverage. One man told me that a coin had been in the the family for nearly a century. He wanted only one drink and was afraid I would not take the coin because of its age. I gave him the drink and change for the piece at its face value, and he was overjoyed."

Little Dorothy Explains Break in Devotional Exercises for Her Family of Dolls.

Little Dorothy is the daughter of a minister. She has a family of fifteen dolls, one of them being a parson. Dorothy is devoted to her treasures. For a long time she held religious service for them, but suddenly the services were discontinued, only to be

as unexpectedly resumed. "Why did you stop the services, Dorothy?" she was asked. "Oh, the dolls decided not to have

them any more." "But why were they started again?" "They all voted that way, that is-" Dorothy hesitated, but she added, regretfully, "All except the clown and

the Teddy bear." They were regarded as incorrigible by the minister's small daughter. Next day at the services they were seated immediately in front of the doll preacher, the other dolls occupying less prom'nent places,

"Why are the clown and the Teddy bear sitting so far forward?" inquired Dorothy's father. "Oh," was the reply, "I thought they most needed to hear the sermon."

London Good Oyster Market. London is a great consumer of

oysters. The cheapness of the delicacy half a century ago created a demand for it, which has hung with the appetites of the people as tenaciously as the habit of smoking a pipe has among the men. It is estimated that London consumes a billion a year, and the record shows that in 1864, when prices were very low, 700,000,000
